SUMMARY

Software Engineer with **2+ years of experience** building production web applications using **Next.js, React.js, TypeScript, JavaScript, FastAPI, and REST APIs**. Delivered features across **3 enterprise products—PIM, CRM, and AI Web Studio**—including a **legacy PHP-to-Next.js migration**, catalogs exceeding **100K+ SKUs**, data-intensive workflows handling **500K+ records**, and a **65% reduction in page-load time** across **80+ enterprise clients**. Experienced in reusable component architecture, API integration, debugging, and performance optimization, and leverage AI tools such as **Cursor and Claude** to accelerate development.

EXPERIENCE

Oritur Technologies Private Limited (WizCommerce)

Software Development Engineer 1 (Software Engineer Intern, Jul 2024 – Jul 2025)

Gurugram, India

July 2024 – Present

- **Migrated core functionality of a legacy PHP/WordPress platform to Next.js**, rebuilding legacy templates and application flows as reusable React components to improve maintainability and accelerate feature development.
- **Built the Product Information Management (PIM) admin from scratch in React.js**, supporting product creation, media management, variants, and attributes for enterprise catalogs exceeding **100K+ SKUs**.
- **Built a CRM Kanban board from 0-to-1 using React, TypeScript, and REST APIs**, with drag-and-drop interactions and real-time updates for enterprise sales pipelines.
- **Developed features for AI Web Studio**, a platform for generating and creating videos, images, and other AI-driven content, translating product requirements into scalable application workflows.
- **Designed data-intensive workflows using Ag-Grid Server-Side Row Model (SSRM)**, server-side data loading, and batched API requests to support **500K+ records** across **3 enterprise products** while maintaining responsive user interactions.
- **Built multi-cart functionality using Next.js and TypeScript with FastAPI-based REST APIs**, letting users create and manage multiple carts with **1,000+ products each**, using optimistic updates for responsive cart interactions.
- **Reduced page-load time by 65%** across **80+ enterprise clients** through CDN caching, content hashing, cache-busting, and asset-delivery optimizations on **GCP**.
- **Used AI tools (Cursor, Claude)** to accelerate feature development and debugging while collaborating with **Product, Backend, UX, and QA teams** to deliver production features in an Agile environment.

Infosys

Application Developer Intern & Scrum Master

Mysuru, India

May 2024 – June 2024

- Developed backend functionality using **Node.js, Express.js, MongoDB, SQL, and REST APIs**, implementing database operations and service integrations.
- Coordinated a **9-member Agile team** across **4 sprint milestones**, facilitating standups, technical discussions, peer code reviews, and delivery tracking.

PROJECTS

Arobix Design Studio | Next.js, Node.js, Prisma, MySQL, Cloudflare, Sentry

Live

- Built an **AI-powered, multi-tenant platform for agencies** with sub-account creation, Kanban-style lane pipelines, an **AI website builder**, team invitations, and a management dashboard using **Next.js, Prisma, and MySQL**.
- Implemented server-side data access, production deployment, monitoring, and caching using **Cloudflare and Sentry**.

Flux | Next.js, WebContainers, MCP

Live

- Built an AI-powered browser-based code IDE using **Next.js and WebContainers**, supporting in-browser project creation, code execution, AI-assisted code generation, and contextual **autocomplete**.
- Implemented **background jobs** for asynchronous AI code-generation workflows, allowing long-running operations to execute independently without blocking the interactive editor experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS, Ag-Grid

Backend & APIs: Node.js, Express.js, REST APIs, FastAPI

Databases: PostgreSQL

Cloud & Infrastructure: GCP, Docker, CDN Caching, Content Hashing, Cache-Busting

Tools: Git, GitHub, Postman, Jira, Sentry, Cursor, Claude

Engineering Practices: Component-Based Architecture, API Integration, Debugging, Performance Optimization, Code Reviews, Agile Development, Responsive Design

EDUCATION

Chitkara University Institute of Engineering and Technology

B.Tech. in Computer Science and Engineering; CGPA: 9.41

Chandigarh, India

2021 – 2025
